Subject Outline

Spring Session 2020

This subject has been adjusted for remote delivery in Spring Session in 2020 due to the Coronavirus Pandemic.

Consultation Times

Subject Coordinator / Wollongong Campus / SWS Campus	Dr Joseph Tonien
Telephone Number:	4221 5712
Email:	dong@uow.edu.au
Location:	3.225

Dr. Tonien's consultation times during session:

Day	Time
Tue	10:30am - 12:30pm
Thu	10:30am - 12:30pm

Subject Organisation

Session:	Spring Session 2020, Wollongong Campus and SWS Campus
Credit Points	6
Contact hours per week:	2 hr lecture & 2 hr computer lab
Lecture Times & Location:	http://www.uow.edu.au/student/timetables/index.html

Subject eLearning

The University uses the eLearning system Moodle to support all coursework subjects.

To access eLearning you must have a UOW user account name and password, and be enrolled in the subject. eLearning is accessed via SOLS (Student Online Service). Log on to SOLS and then click on the eLearning link in the menu column.

The University is committed to providing a safe, respectful, equitable and orderly environment for the University community, and expects each member of that community to behave responsibly and ethically. Students must comply with the University's Student Conduct Rules

- https://documents.uow.edu.au/about/policy/UOW058723.html and related policies including the IT Acceptable Use Policy - https://documents.uow.edu.au/about/policy/uow066134.html , whether undertaking their studies face-to-face, online or remotely. For more information on appropriate communication and etiquette in the online environment please refer to the guide Online and Email Etiquette - https://tr.uow.edu.au/uow/file/976ffde2-b892-42cf-b20b5c7a65bc08cc/1/Overview%20of%20Online%20and%20Email%20Etiquette.pdf

Students should check the subject's Moodle site regularly as important information, including **details of unavoidable changes in assessment requirements will be posted from time to time via Moodle space** http://www.uow.edu.au/student/. Any information posted to the web site is deemed to have been notified to all students.

Extraordinary Changes to the Subject Outline

In extraordinary circumstances the provisions stipulated in this Subject Outline may require amendment after the Subject Outline has been distributed. All students enrolled in the subject must be notified and have the opportunity to provide feedback in relation to the proposed amendment, where practicable, prior to the amendment being finalised.

Learning Analytics

Data on student performance and engagement (such as Moodle and University Library usage, task marks, use of SOLS) will be available to the Subject Coordinator to assist in analysing student engagement, and to identify and recommend support to students who may be at risk of failure. If you have questions about the kinds of data the University uses, how we collect it, and how we protect your privacy in the use of this data, please refer to https://www.uow.edu.au/about/privacy/index.html

Subject Description

This subject introduces students to fundamental web technologies that underlie the World Wide Web and its commercial applications. Topics include an overview of internet communications, an introduction to the webbrowser/web-server client-server systems, HTML5/CSS/XHTML/XML markup languages, web forms and client side scripting. Students will build working web-sites with dynamic content. The subject explains the differences between client-side and server-side Web development, and demonstrates how to build simple applications using scripting and other tools. The subject also covers current Web standards and future W3C recommendations.

Subject Learning Outcomes

On successful completion of this subject, students will be able to:

- 1. Describe the main web technologies in use and select appropriate technologies for a particular context or application.
- 2. Examine various Web formats and standards and apply them appropriately.
- 3. Create scripts that handle input from forms displayed in web browsers.
- 4. Configure and install a Web server that provides controlled access.
- 5. Design, build and implement simple Web-based applications using mark-up languages and scripting, with an emphasis on client-side scripting.

Recent Improvements

Subject Changes and Response to Student Feedback

The School is committed to continual improvement in teaching and learning and takes into consideration student feedback from many sources. These sources include direct student feedback to casual academics and lecturers, feedback through Student Services and the Faculty Central, and responses to the Subject Evaluation Surveys. This information is also used to inform comprehensive reviews of subjects and courses.

Attendance Requirements

Student Workload

Students should note that UOW policy equates 1 credit point with 2 hours of study per week, including lectures and workshops/practicals, self-directed study and work no assessment tasks. For example, in a 6 credit point subject, a total of 12 hours of study per week is expected.

Minimum Attendance Requirements

Satisfactory attendance is deemed by the University, to be attendance at approximately 80% of the allocated contact hours. Where attendance is affected due to compassionate, compelling, or extenuating circumstances an application for academic consideration application should be lodged. Failure to comply with mandatory minimum attendance requirements may constitute grounds for the award of a grade of Technical Fail (TF) in this subject.

Refer to new Coursework Rules and to reflect the Academic Consideration Policy and Compassionate and Compelling Circumstances Guidelines https://documents.uow.edu.au/about/policy/UOW262890.html

Optional Attendence Statement

Students are encouraged to attend all lectures and computer labs.

Method of Presentation

Lecture Recordings

The University of Wollongong supports the recording of lectures as a supplemental study tool, to provide students with equity of access, and as a technology-enriched learning strategy to enhance the student experience.

If you make your own recording of a lecture you can only do so with the explicit permission of the lecturer and those people who are also being recorded.

You may only use recorded lectures, whether they are your own or recorded by the university, for your own educational purposes. Recordings cannot be altered, shared or published on another platform, without permission of the University, and to do so may contravene the University's Copyright Policy, Privacy Policy, Intellectual Property Policy, IT Acceptable Use Policy and Student Conduct Rules. Unauthorised sharing of recordings may also involve a breach of law under the Copyright Act 1969.

Most lectures in this subject will be recorded, when they are scheduled in venues that are equipped with ECHO360 lecture recording technology, and made available via the subject Moodle site with 48 hours.

Lecture Schedule

This is a guide to the weekly lecture topics however the delivery date of these topics may on occasion vary due to unforeseen circumstances, such as the availability of a guest lecturer or access to other resources.

Week Beginning (Monday)	Lecture Topics	Workshop/Laboratory	Readings/ Other Subject Information	Task Due
Week 1 (3 August)	HTML	No computer lab	Lecture 1 presentation	
Week 2 (10 August)	Cascading Style Sheets	Computer lab	Lecture 2 presentation / Assignment 1 released	
Week 3 (17 August)	Basics of JavaScript	Computer lab	Lecture 3	Assignment

		CS11 120		
			presentation	1 due 7:00PM Saturday
Week 4 (24 August)	Web Form	Computer lab	Lecture 4 presentation	
Week 5 (31 August)	Dynamic Documents with Javascript, Animation	Computer lab	Lecture 5 presentation / Assignment 2 released	
Week 6 (7 September)	XML, DTD	Computer lab	Lecture 6 presentation	Assignment 2 due 7:00PM Saturday
Week 7 (14 September)	XSD	Computer lab	Lecture 7 presentation	
Week 8 (21 September)	XSLT	Computer lab	Lecture 8 presentation / Assignment 3 released	
Recess Week (28 September/2 October)	No lecture	No computer lab		
Lab and prac make- up period (5 to 9 October)	No lecture	No computer lab		
Week 9 (12 October)	JSON	Computer lab	Lecture 9 presentation	Assignment 3 due 7:00PM Saturday
Week 10 (19 October)	AJAX	Computer lab	Lecture 10 presentation / Assignment 4 released	
Week 11 (26 October)	Graphic Canvas, Drag and Drop	Computer lab	Lecture 11 presentation	Assignment 4 due 7:00PM Saturday
Week 12 (2 November)	Local Storage	Computer lab	Lecture 12 presentation	
Week 13 (9 November)	Subject Review	No computer lab	Lecture 13 presentation	
STUDY RECESS - 16 - 20 November	No lecture	No computer lab		
EXAMS - 21 November to 3 December	No lecture	No computer lab

UOW Grade Descriptors

GRADE	DESCRIPTOR
High Distinction(HD) 85-100%	For performance that provides evidence of an outstanding level of attainment of the relevant subject learning outcomes, demonstrating the attributes of a distinction grade plus (as applicable) one or more of the following: • consistent evidence of deep and critical understanding • substantial originality and insight in identifying, generating and communicating competing arguments, perspectives or problem-solving approaches • critical evaluation of problems, their solutions and their implications • use of quantitative analysis of data as the basis for deep and thoughtful judgments, drawing insightful, carefully qualified conclusions from this work • creativity in application as appropriate to the discipline • eloquent and sophisticated communication of information and ideas in terms of the conventions of the discipline • consistent application of appropriate skills, techniques and methods with outstanding levels of precision and accuracy • all or almost all answers correct, very few or none incorrect
Distinction (D) 75-84%	For performance that provides evidence of a superior level of attainment of the relevant subject learning outcomes, demonstrating the attributes of a credit grade plus (as applicable) one or more of the following: • evidence of integration and evaluation of critical ideas, principles, concepts and/or theories • distinctive insight and ability in applying relevant skills, techniques, methods and/or concepts • demonstration of frequent originality in defining and analysing issues or problems and providing solutions • fluent and thorough communication of information and ideas in terms of the conventions of the discipline • frequent application of appropriate skills, techniques and methods with superior levels of precision and accuracy • most answers correct, few incorrect
Credit (C) 65-74%	For performance that provides evidence of a high level of attainment of the relevant subject learning outcomes, demonstrating the attributes of a pass grade plus (as applicable) one or more of the following: • evidence of learning that goes beyond replication of content knowledge or skills • demonstration of solid understanding of fundamental concepts in the field of study

	 demonstration of the ability to apply these concepts in a variety of contexts use of convincing arguments with appropriate coherent and logical reasoning clear communication of information and ideas in terms of the conventions of the discipline regular application of appropriate skills, techniques and methods with high levels of precision and accuracy many answers correct, some incorrect
Pass (P) 50-64%	For performance that provides evidence of a satisfactory level attainment of the relevant subject learning outcomes, demonstrating (as applicable) one or more of the following: • knowledge, understanding and application of fundamental concepts of the field of study • use of routine arguments with acceptable reasoning • adequate communication of information and ideas in terms of the conventions of the discipline • ability to apply appropriate skills, techniques and methods with satisfactory levels of precision and accuracy • a combination of correct and incorrect answers
Fail (F) <50%	For performance that does not provide sufficient evidence of attainment of the relevant subject learning outcomes.
Technical Fail (TF)	When minimum performance level requirements for at least one assessment item in the subject as a whole has not been met despite the student achieving at least a satisfactory level of attainment of the subject learning outcomes.

The UOW Grade Descriptors are general statements that communicate what our grades represent, in terms of standards of performance, and provide a frame of reference to ensure that assessment practice across the University is appropriate, consistent and fair. Grade Descriptors are expressed in general terms so that they are applicable to a broad range of disciplines.

Subject Materials

ELearning, Readings, References and Materials

Any readings/references are recommended only and are not intended to be an exhaustive list.

Students are encouraged to use the library catalogue and databases to locate additional readings.

Textbook(s)

None.

Other Resources:

- Beginning HTML & CSS, by Rob Larsen, Wiley, 2013.
- PHP, MySQL, JavaScript & HTML5 all-in-one for dummies, by Steve Suehring and Janet Valade, John Wiley & Sons, 2013.

- JavaScript and JSON essentials, Sai Srinivas Sriparasa, Packt Publishing, 2013.
- Programming the World Wide Web, 8th edition, by Robert W. Sebesta, Pearson, 2014.

Method of

Submission

Submission via Moodle site.

Marks will be released on SOLS by the University.

Return of assessed

work

The assessment schedule is subject to change, for up-to-date information, please see the subject's Moodle site.

Notes on Assessment

All assignments are expected to be completed independently. Plagiarism may result in a FAIL grade being recorded for the subject.

Method for Submission of Assessment Items

All assignments should be submitted on the subject Moodle site.

Arrangement for acknowledging submission of written work

When you submit your assignment on the Moodle site, a digital receipt is displayed in your browser window after the submission is completed.

Procedure for the return of assessment items

Your assignment must be submitted first to Moodle site before being marked by the tutor. You may be asked questions about your code in the lab. Your marks may be deducted if you could not answer the questions presented by the tutor. Official mark will be displayed on SOLS.

Procedure for the retention of assessed work

The University may retain copies of student work in order to facilitate quality assurance of assessment processes, in support of the continuous improvement of assessment design, assessment marking and for the review of the subject. The University retains records of students' academic work in accordance with the University Records Management Policy and the State Records Act 1988 and uses these records in accordance with the University Privacy Policy and the Privacy and Personal Information Protection Act 1998.

Formative feedback given to student prior census date consists of the following

You should have your first assignment mark and feedback before the census date.

Assessment General

Submission of assessment items via email will not be accepted.

Student contributions to tutorial and/or seminars

Not applicable.

Marks in this subject are not routinely scaled

Marks awarded for any assessment task (including examinations) may be subject to scaling at the end of the session by the School Assessment Committee (SAC) and/or the Faculty Assessment Committee (FAC). Marks may be scaled in accordance with University policy. Scaling will not affect any individual student's rank order within their cohort. For more information refer to Standards for Finalisation of Student

Results: http://www.uow.edu.au/about/policy/UOW039331.html

Assessment task is set up to be checked by Turnitin

• This assessment task has been set up to be checked by Turnitin, a tool for checking if it has unreferenced content.

Assessment Quality Cycle

The University of Wollongong is committed to the quality assurance and quality enhancement of assessment. The University will meet its legislative and regulatory obligations, to ensure consistent and appropriate

assessment through course management and coordination, including assessment quality assurance procedures. An Assessment Quality Cycle is used to describe quality assurance at the points of assessment design, assessment delivery, the declaration of marks and grades, and review and improvement activities.

Referencing System

The type of referencing system to be used for written work is the Author-Date (Harvard) referencing system.

Internet Resources

http://www.w3schools.com http://developer.mozilla.org/en-US/docs/Web

Technical Fail

Minimum Performance Requirements

To be eligible for a Pass in this subject a student must achieve a mark of at least 35% in the Final Exam. Students who fail to achieve this minimum mark & would have otherwise passed may be given a TF (Technical Fail) for this subject.

All assessment tasks must be submitted. Students who do not meet the minimum performance requirements, as specified for each assessment, will receive a TF (Technical Fail) grade for this subject, which will appear on your Academic Transcript.

Supplementary Exams

Supplementary Assessment

Supplementary assessment may be offered to students whose performance in this subject is close to that required to pass the subject, and are otherwise identified as meriting an offer of a supplementary assessment. The Subject Coordinator will determine the precise form of supplementary assessment at the time the offer of a supplementary is made. In some circumstances you may be offered a supplementary exam. For more information about Supplementary or Deferred Exams refer to

- https://www.uow.edu.au/student/exams/supplementary-exams/
- 1. A student whose overall performance results in a TF will only be granted a supplementary assessment task (e.g. a supplementary exam or a supplementary assignment) if approved by the school assessment committee.
- 2. A student who achieves a mark of 48-49% will normally be eligible for a grade of WS and a supplementary exam organised by the University. In this case, the maximum grade attainable is PS (Pass Supplementary) and a mark of 50%.
- 3. A student who has successfully applied for academic consideration will receive either:
 - a. A WD Withheld Deferred Exam and be allowed to sit only a supplementary exam, which will be supervised by the University or

b. A WH – Withheld – and be allowed to sit a supplementary exam not supervised by the University or complete some other supplementary task

- 4. If a student is being investigated for misconduct and the investigation cannot be completed before the grades are released the student will receive a grade of WH until a mark is declared.
- 5. Calculators will not be allowed in the final exam.

Deferred Exams

For students who applied for Academic Consideration to request to sit their exam again, and had their application approved by their subject coordinator.

For more information about Supplementary or Deferred Exams refer to

- https://www.uow.edu.au/student/exams/supplementary-exams/

Penalties for late submission of assessment items

Assessed work must be handed in by the date and time given.

- Penalties apply to all late assessments, except if student academic consideration has been granted. A new submission date may be given if Student Academic Consideration has been granted, however the late penalties below apply if not received by the new date.
- Late assignment submissions will attract a penalty of 25% of the total assessment mark for that task per day including weekends no matter how many seconds the submission is late.
- All submissions received 4 days after the due date will receive no marks.
- If an assessment is submitted late, it will be marked in the normal way, and then a penalty will be applied.
- Submissions received 7 days after the due date will receive no feedback. However, lecturers may choose to provide feedback at their discretion.

Extensions

Extensions of time to submit material for assessment can only be requested in advance of the due date for an assessment activity through the Academic Consideration process on SOLS. For more information please refer to the Student Academic Consideration Policy at: http://www.uow.edu.au/about/policy/UOW058721.html

Your Privacy - Lecture Recording

In accordance with the Student Privacy & Disclosure Statement, when undertaking our normal teaching and learning activities, the University may collect your personal information. This collection may occur incidentally during the recording of lectures in equipped venues (i.e. when your identity can be ascertained by your image, voice or opinion), therefore the University further advises students that:

• Lecture recordings are made available to students, university staff, and affiliates, securely on the university's

Echo360 ALP (Active Learning Platform) and via the subject Moodle eLearning site;

- Recordings are made available only for the purpose for which they were recorded, for example, as a supplemental study tool or to support equity and access to educational resources;
- Recordings are stored securely for up to four years.

If you have any concerns about the use or accuracy of your personal information collected in a lecture recording, you may approach your Subject Coordinator to discuss your particular circumstances.

The University is committed to ensuring your privacy is protected. If you have a concern about how your personal information is being used or managed please refer to the University's Privacy Policy or consult our Privacy webpage https://www.uow.edu.au/privacy/

Reasonable Adjustment

If you have a disability or a medical condition which may disadvantage you in your assessment tasks, you can apply to have the conditions of your exams adjusted to take your disability or condition into account. In particular students cannot assume that a reasonable adjustment document automatically gives a right to a deferred or supplementary exam. Students with a disability may be entitled to reasonable adjustment to assessment. A reasonable adjustment document obtained through Disability Services is a recommendation that needs to be discussed and ratified by subject coordinators. Normal subject assessment requirements can only be adjusted with the explicit written permission of the subject coordinator.

Workshop/Lab Closure Policy

If for any reason, the number of students in a workshop or lab falls below a sustainable enrolment level, as determined by the Head of School, workshops/labs offered for that subject may be collapsed or deleted. You will have to attend the new workshops/lab if this closure affects the one you are attending. We will endeavour to make this decision no later than Week 4 of session.

Exams

Exams will be run in accordance with UOW Exam rules, please refer to changes to exams and grades at: http://www.uow.edu.au/student/exams/UOW115867.html

Supplementary Assessment

Supplementary assessment may be offered to students whose performance in this subject is close to that required to pass the subject, and are otherwise identified as meriting an offer of a supplementary assessment. The Subject Coordinator will determine the precise form of supplementary assessment at the time the offer of a supplementary is made. In some circumstances you may be offered a supplementary exam. For more information about Supplementary or Deferred Exams refer to

- https://www.uow.edu.au/student/exams/supplementary-exams/

Deferred Exams

For students who applied for Academic Consideration to request to sit their exam again, and had their application approved by their subject coordinator. For more information about Supplementary or Deferred Exams refer to - https://www.uow.edu.au/student/exams/supplementary-exams/

Student Academic Consideration Policy

The School recognises that it has a responsibility to ensure equity and consistency across its subjects for all students. Sometimes, in exceptional circumstances, students need to apply for student academic consideration in order to complete all assessable work.

If you believe that your submission of, performance in or attendance at an assessment activity, including an examination, has been affected on compassionate grounds, by illness or by other serious extenuating circumstances beyond your control, you can apply for academic consideration in Student OnLine Services (SOLS). Do not assume that an application for academic consideration will be automatically granted.

The purpose of the Student Academic Consideration Policy is to enable student requests for academic consideration

for specific assessment tasks, examinations, academic progress or attendance requirements in a subject relevant to

their course to be evaluated in a fair, reasonable, timely and consistent manner throughout the University. This Policy sets out clear and defined requirements allowing for transparency, ease of interpretation and implementation.

Consistency in criteria, procedures, and outcomes in the processing of applications for academic consideration for

all forms of assessment are requirements of this Policy. For more information please refer to the Student Academic Consideration Policy at: http://www.uow.edu.au/about/policy/UOW058721.html

Academic Integrity Policy

The University's policy on acknowledgement practice and plagiarism provides detailed information about how to acknowledge the work of others: http://www.uow.edu.au/about/policy/UOW058648.html

The University's Academic Integrity Policy, Faculty Handbooks and subject guides clearly set out the University's expectation that students submit only their own original work for assessment and avoid plagiarising the work of others or cheating. Re-using any of your own work (either in part or in full) which you have submitted previously for assessment is not permitted without appropriate acknowledgement or without the explicit permission of the Subject Coordinator. Plagiarism can be detected and has led to students being expelled from the University.

The use by students of any website that provides access to essays or other assessment items (sometimes marketed as 'resources'), is extremely unwise. Students who provide an assessment item (or provide access to an assessment item) to others, either directly or indirectly (for example by uploading an assessment item to a website) are considered by the University to be intentionally or recklessly helping other students to cheat.

Uploading an assessment task, subject outline or other course materials without express permission of the university is considered academic misconduct and students place themselves at risk of being expelled from the University.

When you submit an assessment task, you are declaring the following

- 1. It is your own work and you did not collaborate with or copy from others.
- 2. You have read and understand your responsibilities under the University of Wollongong's Academic Integrity Policy on plagiarism.
- 3. You have not plagiarised from published work (including the internet). Where you have used the work from others, you have referenced it in the text and provided a reference list at the end to the assignment.

Students must remember that:

- Plagiarism will not be tolerated.
- Students are responsible for submitting original work for assessment, without plagiarising or cheating, abiding by the University's Academic Integrity Policy as set out in the University Handbook, the University's online Policy Directory and in Faculty handbooks and subject guides.

Review and Appeal of Academic Decisions Policy

A student may request an explanation of a mark for an assessment task or a final grade for a subject consistent with the student's right to appropriate and useful feedback on their performance in an assessment task. A student may also seek further explanation for other academic decisions such as Academic Consideration, Supplementary Assessment or Credit for Prior Learning. If a student is not satisfied with the explanation, or have further concerns, they may have grounds for a formal review. For further information refer to: https://documents.uow.edu.au/about/policy/students/UOW189967.html

Relevant University Policies, procedures and students services

The University of Wollongong has a number of policies and guidelines that govern student and course management that students need to be aware of, a summary of these is available at https://www.uow.edu.au/engineering-information-sciences/current-students/policies-guidelines/

Student Support

There are a range of services available to students that are provided free of charge.

A good place to get to know services that may be of use to you is the Get Started @ UOW web page, accessed here https://getstarted.uow.edu.au/index.html or search for "Get Started @ UOW".

Services available include:

Library Services

To save yourself time and enhance your studies: connect with information specialists and resources anytime, anywhere via Ask Us: http://www.library.uow.edu.au/ask/UOW026599.html or *Google* "UOW library ask us"

Online – Ask a Librarian	Ask questions and receive a response within 1 business day
In person – Book a Librarian	30-minute appointment with an Librarian
	1 hour appointment with an information specialist. Available to UOW academics, HDRs, Postgraduate Coursework, Honours and Masters students.
By phone	+61 2 4221 3548

The Main Library (Building 16) and Education Curriculum Resources Centre (Building 22) are located at the Wollongong Campus. UOW Libraries at other locations are listed on the Library website.

This outline should be read in conjunction with the following:

Teaching and Assessment: Code of Practice - Teaching

This Code is a key document in implementing the University's Teaching and Assessment Policy and sets out the specific responsibilities of parties affected in relation to learning, teaching and assessment, as well as procedures for teaching staff. The Code can be found

at: http://www.uow.edu.au/about/policy/UOW058666.html

Teaching and Assessment: Assessment and Feedback Policy

The purpose of this Policy is to set out the University of Wollongong's approach to effective learning, teaching and assessment, including the principles and minimum standards underlying teaching and assessment practice. The Policy can be found at: http://www.uow.edu.au/about/policy/alphalisting/UOW222905.html

Teaching and Assessment: Subject Delivery Policy

This Policy sets out specific requirements in relation to the delivery of Subjects. The policy can be found at: http://www.uow.edu.au/about/policy/alphalisting/UOW222906.html

Key Dates: http://www.uow.edu.au/student/dates/index.html

Course Progress Policy

The Course Progress Policy establishes the requirements, definitions and procedures to be used in determining the standards of acceptable course progress; the definitions of the roles and responsibilities of UOW staff and students with regard to course progress; and the descriptions of the resources and choices available to assist students at risk of not achieving course progress standards. The Policy can be found

at: http://www.uow.edu.au/about/policy/UOW058679.html

Coursework Student Academic Complaints Policy

UOW aims to provide a transparent and consistent process for resolving student academic grievances. Further information is available at: http://www.uow.edu.au/about/policy/UOW058653.html

Workplace Health & Safety Policy

The Workplace Health and Safety (WHS) unit at UOW aims to provide structures, system and support to ensure the health, safety and welfare of all at the campus. Further information is available from:

http://staff.uow.edu.au/ohs/

Human Research Ethics Guidelines

The Human Research Ethics Committee protects the welfare and rights of the participants in research activities. Further information can be found here: http://www.uow.edu.au/research/ethics/human/index.html

Student Support Adviser (SSA)

If you have a temporary or ongoing issue or a problem that is affecting your study, including issues that are related to belonging to an equity group, then the Student Support Advisers may be able to help. There are Student Support Advisers available to assist students who are studying at all UOW Campuses and in all UOW Faculties. Contact details can be found on the UOW website:

https://www.uow.edu.au/student/services/SSA/contact

Student Advocacy Service (SAS)

The Student Advocacy Service (SAS) is free, confidential and independent service for all UOW students. The SAS provides advocacy and referral for a range of academic, procedural and administrative issues. For more information visit: https://www.uow.edu.au/student/support-services/advocacy/

Information Technology Services and Policies: http://www.uow.edu.au/its/accounts/index.html

Academic Integrity and Plagiarism Policy

The University's policy on acknowledgement practice and plagiarism provides detailed information about how to acknowledge the work of others: http://www.uow.edu.au/about/policy/UOW058648.html

Student Conduct Rules

In line with UOW's commitment to academic integrity, new rules related to student conduct have been in effect since 1 January 2008. Relevant information may be found at:

http://www.uow.edu.au/about/policy/UOW058723.html

Code of Practice - Research

This Code mandates the current policy and best practice relating to procedures for responsible research. The Code can be found at: http://www.uow.edu.au/about/policy/UOW058663.html

The Code of Practice – Student Professional Experience

The Code of Practice – Student Professional Experience sets out what is expected from students, the University and Host Organisations in providing student professional experience programs. It applies to student professional experience programs that form the whole or part of a subject or course offered at the University. The code assists in promoting a productive learning experience for students. Current policies and practices relating to the workplace experience and other practical training requirements can be found at: http://www.uow.edu.au/about/policy/UOW058662.html

Code of Practice – Honours

This Code sets out the responsibilities of all parties involved in managing students undertaking Honours Programs. The Code can be found at: http://www.uow.edu.au/about/policy/UOW058661.html

IP Student Assignment of Intellectual Property Policy

This policy applies to all Students (under-graduate and post-graduate) of the University of Wollongong (UOW). It may also apply to other persons by agreement. This policy sets out the approach taken by UOW in relation to Student assignment of intellectual property. Further information about this policy can be found here:

http://www.uow.edu.au/about/policy/UOW058690.html

Research Misconduct Policy: http://www.uow.edu.au/about/policy/UOW058715.html

Inclusive Language Guidelines

UOW endorses a policy of non-discriminatory language practice in all academic and administrative activities of the University. Further information is available from:

http://www.uow.edu.au/about/policy/alphalisting/UOW140611.html

Ownership of Work & Intellectual Property Policy:

https://documents.uow.edu.au/about/policy/uow058680.html
